

# BR-280 L&Z Bracket

## Versatile LZ Bracket for In-Swing Door Installation

The BR-280 LZ bracket is specifically designed for in-swing doors, providing secure installation of electromagnetic locks on various door types.

It ensures proper alignment and functionality for the locking mechanism, making it ideal for both commercial and residential applications.

### Key Feature

In-Swing Door Compatibility:	Specifically designed for in-swing doors to ensure proper alignment with electromagnetic locks.
Durable Material Construction:	Built from high-quality, robust materials to ensure long-lasting and reliable performance in high-traffic areas.
Enhanced Lock Alignment:	Provides the perfect alignment for electromagnetic locks, ensuring optimal locking functionality and security.
Versatile Installation:	Suitable for various door installation setups, including different door frame sizes and materials, making it adaptable for both residential and commercial use.

### In-Swing Door Compatibility:

Ideal for securely mounting electromagnetic locks on in-swing doors, ensuring proper alignment and functionality.

### Flexible Installation Options:

Provides adjustable "L" and "Z" bracket configurations to suit different door frame sizes and installation conditions.

### Durable Construction:

Made from high-quality materials to withstand wear and ensure long-lasting performance in commercial and residential applications.

### Suitable for Various Door Types:

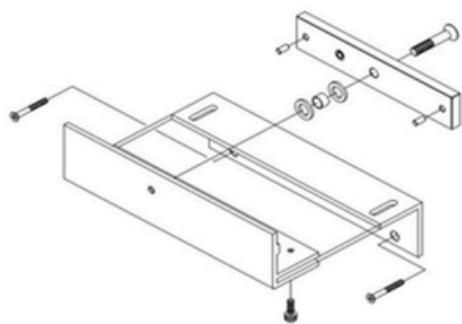

Can be used on both aluminum and wooden doors, offering versatile installation across different environments.

### Easy Installation:

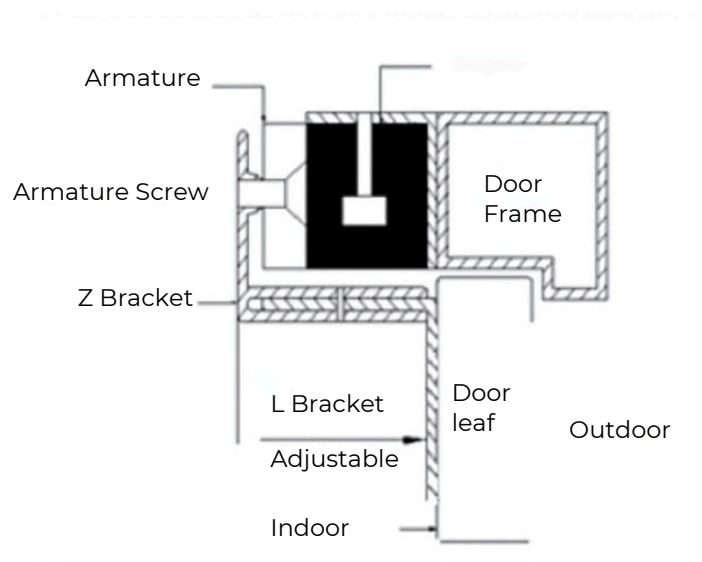

Designed for hassle-free setup, ensuring quick and secure installation without the need for extensive modifications to the door frame.

# Installation

## Install Method 1

## Install Method 2

## Corrosion Resistance:

The brackets are designed with anti-corrosion properties, ensuring longevity even in humid or outdoor environments.

## Customizable Fit:

Suitable for a range of door thicknesses and adjustable positioning to ensure optimal lock alignment.

## Enhanced Security:

Ensures stable lock mounting, providing additional security and preventing tampering with electromagnetic locks.

## Application:

- \*\*In-Swing Door Compatibility:\*\*** Designed for electromagnetic locks on in-swing doors for secure locking in commercial and residential settings.
- \*\*Versatile Door Types:\*\*** Works on wooden, aluminum, and metal doors, allowing flexible installations.
- \*\*High-Security Installations:\*\*** Ideal for high-security locations like offices and banks where reliable locking is crucial.
- \*\*Customizable Installation:\*\*** Offers various bracket options ("L" and "F" brackets) to adapt to different door and frame configurations for enhanced security.

## Specification:

Model Number:	BR-280
Material:	High-durability stainless steel for long-lasting performance
Application:	Suitable for in-swing doors.
Small "L" Bracket:	250 x 48.5 x 30.5 mm
Large "L" Bracket:	250 x 56 x 47 mm
"F" Bracket:	250 x 66 x 52 mm
Compatibility:	Designed for the secure installation of electromagnetic locks on wood, aluminum, and metal doors.
