

# SMART FAN Switch

## Smart Speed Control for Ceiling Fans with App & Voice Integration

The Smart Fan Switch brings intelligent control to your ceiling fan, allowing you to manage speed, schedule operations, and monitor energy use—all through the Tuya Smart app or voice assistants like Alexa and Google Assistant. It's a perfect upgrade for adding automation and comfort without replacing your existing fan.

### Key Feature

Remote & Voice Control:	Operate your fan from anywhere or use voice commands for hands-free control.
Adjustable Fan Speeds:	Select and change fan speeds directly from the app or via voice assistant.
Timer & Scheduling:	Set automated on/off times to match your comfort routine or save energy.
Energy Monitoring:	Track power consumption in real time for smarter usage.
Overload Protection:	Built-in safety features ensure secure and stable operation.
Easy Installation:	Installs in standard wall switch boxes with no complex rewiring required.
Smart Platform Integration:	Works with other Tuya-based smart home devices for scene and group control.

Google Assistant

alexa

### Convenient Remote Control

Manage fan speed and power from anywhere using your smartphone.

### Hands-Free Voice Operation

Adjust fan settings instantly via Alexa or Google Assistant.

### Energy Efficiency

Monitor and reduce energy use with real-time power tracking.

### Customizable Comfort

Set speed levels and automate on/off schedules based on time of day or activity

### Easy Installation:

Fits standard wall switch boxes—no need to change your existing fan.

### Enhanced Safety

Built-in overload protection safeguards your appliances and wiring.

## Smart Fan Switch

Control your ceiling fan remotely, adjust speed, and schedule operation via app or voice smart comfort made simple.

## Mobile App Control

Control your devices anytime, anywhere using the Tuya Smart app schedule, monitor, and automate with just a tap.

## Timing Function

Set automatic on/off schedules for your ceiling fan using the Tuya Smart app perfect for managing comfort and energy use effortlessly.

## Smart Comfort Control

Easily adjust fan speed, set schedules, and control your ceiling fan remotely or by voice bringing effortless comfort to any room.

## Voice-Activated Fan Control

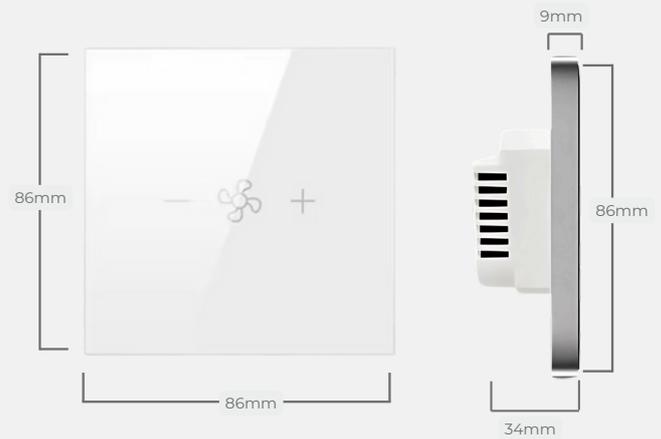

Turn your ceiling fan on or off, and adjust speeds using simple voice commands through Alexa or Google Assistant—for hands-free comfort.

## Touch Control Interface

Equipped with a sleek tempered glass panel, the switch supports manual touch control offering both style and functionality with smooth, responsive operation.

## Dimension

## Usage

- Home Bedrooms & Living Rooms: Adjust fan speed for comfort from bed or couch.
- Offices & Workspaces: Control airflow and productivity with scheduled fan use.
- Energy-Efficient Smart Homes: Monitor and reduce power usage by scheduling fans.
- Hospitality & Hotel Rooms: Provide guests with app or voice-controlled fan settings.
- Rental Apartments & Villas: Enhance comfort with smart features without replacing existing fans.
