All-in-One Smart Home Control Hub

The Sumato Smart Control Panel is a premium touchscreen controller available in 4", 6", and 8" sizes, built to serve as the central hub for smart home automation. With a built-in voice assistant, integrated gateway, and support for Tuya, Alexa, and Google Assistant, it enables seamless control of lighting, curtains, HVAC, security, and custom scenes—all from a single, elegant wall-mounted panel.

Key Feature

Touchscreen Smart Interface:	Available in 4", 6", and 8" sizes with intuitive and responsive operation.
Built-in Voice Assistant:	Speak commands directly to control scenes, lights, or devices—no extra speaker needed.
All-in-One Gateway Function:	Acts as the central hub for connecting and managing Tuya-compatible smart devices.
Multi-System Control:	Manage lighting, curtain motors, security alarms, HVAC (6"), and multi-room scenes (8").
Remote & Real-Time App Control:	Control and monitor all connected devices from the Tuya Smart app.
Scene Scheduling & Custom Automation:	Set time-based actions or trigger entire rooms with one tap or voice command.
Smart Safety Protection:	Overload and temperature control built-in for long-term reliability.
Modern Wall-Mounted Design:	Compact 86×86mm for 4", wide immersive layout for 6" and 8", matching any interior.

Centralized Control

Manage lighting, curtains, HVAC, and security from one touchscreen interface.

Built-In Voice Assistant

Control your smart home with voice commands—no extra devices required.

All-in-One Gateway

Acts as a hub for all Tuya-compatible devices, streamlining connectivity.

Multi-Room Management

The 8" model supports advanced control across different zones or rooms.

Real-Time Monitoring

Monitor and adjust devices on the go via the Tuya Smart mobile app.

Elegant, Scalable Design

Fits seamlessly into any interior with 4", 6", and 8" options for every space.

4Inch HD multi Touch Screen

Effortlessly manage your home with a 4-inch HD multi-touch screen intuitive, responsive, and designed for everyday convenience.

Unified Smart Control

Sync all your devices via Wi-Fi, Bluetooth, in one simple interface.

Proximity Wake-Up

Screen activates automatically when motion is detected within 20cm.

Control Anytime, Anywhere

Manage your smart home remotely through the mobile app with seamless connectivity
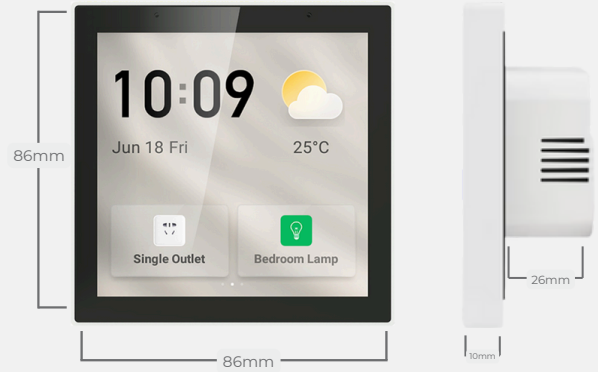

Personalized Smart Scenes

Automate daily routines like party, sleep, and coming-home modes with a single tap even offline.

Tap to Take Control

Adjust lights, scenes, and more with a simple touch on the smart panel.
